Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 11 December 2000.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1-2, 5, 7-8, 11, 13-14 & 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Leighton et al (hereinafter Leighton – US 5,351,302).

Re. Claims 1, 7 and 13, Leighton substantially discloses the limitations of current application such as: creating digitally secure document using cryptography, concatenation of data strings, digital signature, etc [see the entire document particularly, Abstract; C1 L1 to C2 L16], an owner, creating a title for a financial instrument, the title including (i) a message describing the title and how to contact the owner, and (ii) a digital signature of the owner [C1 L35-L68], the owner transferring ownership of the financial instrument to another person, including the steps of i) the owner appending to the title a public part of a signature scheme of said other person [C2 L51-L68], and ii) the owner signing the title using a public signature scheme of the owner [C2 L51-L68].

Re. Claims 2, 8 & 14 Leighton discloses wherein the transferring step includes the step of appending to the title a number indicating the number of successive owners of the title (ownership history) [C5 L13-L44].

Re. Claims 5, 11, & 17 Leighton discloses wherein, the creating step includes the step of using a secure cryptographic generator to create the title [C1 L35-L45; C3 L31 to C4 L14].

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 3-4, 9-10 & 15-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leighton in view of Muftic (US 5,850,442).

Re. Claims 3-4, 9-10 & 15-16 Leighton discloses creating digital secure encrypted document (titles) using "public-key cryptosystem" [C1 L1 to C2 L16; C3 L31 to C4 L14]. Leighton, explicitly, does not disclose owner keeping the public part of the signature of the other person and making said public part available to potential subsequent buyers and comprising the step of sending the title, with the signature of the owner made using the public signature scheme of the owner, to said other person. However, Muftic

Art Unit: 3628

discloses these steps [Abstract, Figures 17, 25-27; C1 L32 to C8 L7; C7 L32-L63; C7 L1-L5; C18 L35-L67] to conduct secure electronic commercial transaction over the network, which uses public key cryptography. It would have been obvious at the time the invention was made to a person having ordinary skill in the art to combine the disclosures of Leighton and Muftic to permit secure transaction to undertake world wide transparently over the Internet.

Claims 6, 12 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leighton in view of Arbaugh et al (US 6,185,678).

Re. Claims 6, 12 & 18 Leighton, explicitly, does not disclose wherein the secure cryptographic generator is an IBM 4758. However, Arbaugh et al discloses this step to allow software and data to be transferred between computer system [C1 L20-67; C4 L33-L65; C7 L6-L27; C9 L11-60]. It would have been obvious at the time the invention was made to a person having ordinary skill in the art to combine the disclosures of Leighton and Arbaugh et al to permit secure transaction to undertake over the Internet.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant is required under 37 CFR ' 1.111 (c) to consider the references fully when responding to this action.

US 6,711,554 to Salzmann et al, Mar. 24, 2004 "Method and system for managing and preparing documentation for real estate transactions" discloses a method and system for preparing and managing real estate transfers and financing, which includes a system for preparation, production, delivery and storage of relevant documentation and the data, contained therein.
